# Trebinje

BREEDING GROUND FOR YOUR INVESTMENTS

## ■ GEOGRAPHIC POSITION

The City of Trebinje is located in the southeast part of Bosnia and Herzegovina (BiH), in the entity of Republika Srpska (RS), close to the triple border between Bosnia and Herzegovina, Montenegro, and Croatia. Trebinje is the south-most city in BiH and RS, on the very border with the Republic of Croatia/European Union (EU).

The regular annual analysis for assessing the attractiveness of European cities and regions for investment for 2023, conducted by the "Financial Times" and published in the "fDi Intelligence" magazine, once again recognized the Republic of Srpska as one of the most favourable destinations for business investment in Europe. Srpska received this flattering title thanks to the overall strategy for investment promotion. The city of Trebinje is ranked in the high eighth position in the category "micro-European cities for the future - strategy for the promotion of FDI investments" (FDI - foreign direct investments).

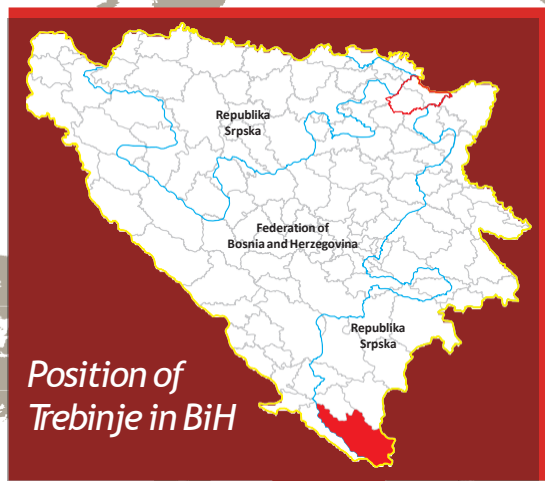

Tax policy in BiH and Republika Srpska is stimulative: VAT rates of 17% and profit tax rates of 10% are amongst the lowest in the region and in Europe.

## ■ CITY OF TREBINJE

Surface area	904 km <sup>2</sup>
Population	31,433 <i>(2013 Population Census Final Results)</i>
Relief	Dinarides mountain range karst with karst water springs, crevasses, caves and other forms of karst hydrology.
Climate	2 types: Mediterranean and moderate continental climate Around 260 sunny days annually
Altitude	275 m (urban part)

# TREBINJE

## Breeding Ground for Your Investments

### Excellent location of Volujac Business zone for greenfield investments

- In the immediate vicinity of M20 primary road toward the EU market (1 km), the railway (70 km), the sea port (30 km) and the airport (45 km). Surface area of 85 hectares with parcels that can both be consolidated and divided.
- Along with incentives of the city administration for construction of manufacturing plants, availability of highly qualified and price competitive workforce and favorable operating costs, it represents an attractive investment location for investments in the processing sector and other sectors.

### Trebinje has mild climate, abundance of water, arable land and 260 days of sunlight annually.

- Large wealth of natural resources of Trebinje that is insufficiently utilized offers opportunities for investing in the agricultural sector.
- Early spring Mediterranean fruit and vegetables in this area ripen 30 to 40 days earlier than in continental areas.

### Tourism is a fast-growing sector in Trebinje

- Trebinje has a capacity of 3,000 beds, of which 600 belong to registered and categorized private accommodation (rooms, apartments, and holiday homes).
- In 2024, Trebinje recorded a 9.8% increase in tourist arrivals and overnight stays compared to 2023.
- During 2024, 121,270 tourists visited Trebinje and 230,710 overnight stays were registered .
- Foreign tourists accounted for 170,867 overnight stays (74%), while domestic tourists accounted for 59,843 (26%).
- The average length of stay in 2024 was 1.85 days.
- City in the immediate vicinity of the Adriatic Sea, on the banks of river Trebišnjica under the mountain of Leotar with all the natural beauty, cultural and historical monuments and excellent gastronomy offer, provides excellent opportunities for investing in tourism infrastructure.

### Powerful energy sector

- In the energy sector, under the project of “Upper Horizons of Trebišnjica River” of the Trebišnjica Hydro Power System, it is envisaged to construct three new hydro power plants within the territory of Republika Srpska, with total installed power of 257 MW.

### Environment for investments and doing business is continuously improved

- City administration is focused on service provision and cooperation with potential and current investors through proactive, transparent and efficient operations. Our objective is a continuous improvement of conditions for investments and business operations of companies.

# TRANSPORT INFRASTRUCTURE

Trebinje is located at a significant intersection of roads leading from North to South and from East to West.

## Roads

- **M20 Primary Road** stretches along the direction from North to South and connects Trebinje directly with Croatia/EU on the border crossing of Ivanica (Goražde-Foča-Gacko-Trebinje-Border Crossing Ivanica).
- **M6 Primary Road** connects Border Crossing Gorica with Croatia/EU and Border Crossing Klobuk with Montenegro (Border Crossing Gorica-Grude-Ljubuški-Čapljina-Stolac-Trebinje-Border Crossing Klobuk).

## Airports

BiH: Sarajevo (cargo)-198 km, Mostar-114 km  
Croatia/EU: Čilipi-Dubrovnik (cargo)-41 km  
Montenegro: Podgorica (cargo)-117 km, Tivat-93 km

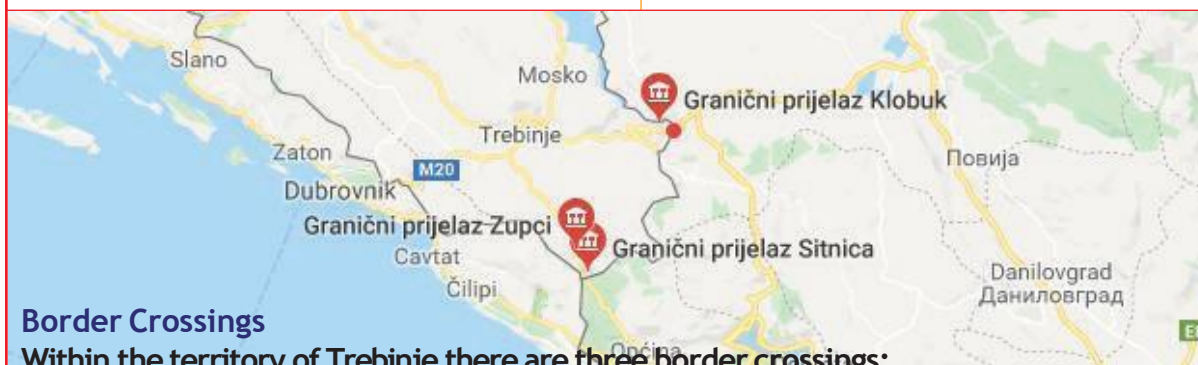

## Ports

### Sea ports:

Croatia/EU: Dubrovnik-31 km, Ploče-130 km  
Montenegro: Bar-120 km

### River ports:

BiH: Brčko-382 km

## Border Crossings

Within the territory of Trebinje there are three border crossings:

**Two border crossings with Montenegro (towards Nikšić and Herceg Novi):**

- Klobuk/Illino brdo - International border crossing of category I in road transport for persons, all types of goods and means of transport
- Zupci/Sitnica - International border crossing of category II

**One border crossing with Croatia/EU (towards Dubrovnik):**

- Ivanica - the south-most crossing of BiH towards the European Union  
International border crossing of category I in road transport for persons, all types of goods and means of transport

**Other border crossings with Croatia/EU:**

- Bijača (Ljubuški)/Nova Sela - Exit to A1 highway (Zagreb-Split-Dubrovnik)  
One of two border crossings in BiH for transport of fruit and vegetables that are subject to checks for conformity with market standards and tests of health safety when transported across a common state border

**Border crossings with Serbia:**

- Rača/Sremska Rača
- Karakaj/Mali Zvornik
- Vardište/Kotroman

All three border crossings are international border crossings of category I in road transport for persons, all types of goods and means of transport

# BUSINESS ENVIRONMENT

Economy of Trebinje is based on small enterprises and entrepreneurs, in addition to several medium and large enterprises.

## Business and Economic Trends

- In 2018-2024, there was a continuous growth in the number of registered business entities. In 2024, there was an increase in the number of registered business entities by (+4%) compared to 2023 and an increase in the number of registered independent entrepreneurs by (+14%) in 2024 compared to 2023.
- At the end of 2024. the number of employed persons was 9,034
- (Source: Tax Administration of the RS, Regional centre Trebinje)
- In 2024, the coverage of import by export at the level of the City of Trebinje is 158,96 %

## Educational institutions in Trebinje

<b>Secondary Schools</b>	<ul style="list-style-type: none"><li>• Gymnasium “Jovan Dučić”</li><li>• Technical School (electrical engineering, mechanical engineering - technician for CNC technologies, transportation and civil engineering)</li><li>• Secondary School Center (Schools of Economics, Trade, Tourism, and Medicine)</li><li>• Secondary Music School</li></ul>
<b>University</b>	<ul style="list-style-type: none"><li>• <b>University School for Manufacturing and Management</b> is the center of knowledge and the source of staff for energy management and generation of energy for the entire region, and for processing industry.</li><li>• <b>University School for Business Engineering and Management (PiM)</b> is a center for development of human resources for modern law practice and scientific work in economics.</li><li>• <b>College for Tourism and Hotel Industry</b> is the regional center of knowledge and source of staff for the growing industry of relaxation and recreation.</li><li>• <b>Academy of Visual Arts</b> contributes to the development of creative industries, which, in the new global economy (knowledge and experience economy) are exhibiting excellent potential for growth.</li><li>• <b>The Faculty of Agriculture</b> - is a center of knowledge and a source of personnel for Agro-Mediterranean production (it focuses on the cultivation of Mediterranean crops, viticulture, olive growing, winemaking and the preservation of autochthonous species characteristic of the south of Herzegovina).</li></ul>

## NATURAL RESOURCES

**Water** - Thanks to climate conditions and abundance of precipitation, the area of Trebinje is among the areas of the Balkan and Europe that are rich in water. The largest source of water is the watershed of river Trebišnjica, which was explored in detail and covers 4,457 km of surface area. Water potential is used for water supply of the population, power generation, industrial and servicing activities, and high quality irrigation of Trebinje and Popovo fields.

**Land** - Of the total surface area of Trebinje, 20,106 hectares represent agricultural land.

**Climate** - Geographic position of Trebinje provides for very favorable climatic characteristics for agricultural production and, in general, for activities and lives of people.

**Construction material** (stone, gravel, sand) - Significant unused wealth of Trebinje. Significant reserves of high-quality construction stone exist on 15 localities along the entire valley of river Trebišnjica - the edges of karst fields - Trebinjsko, Popovo and Zubačko field.

**Medicinal and aromatic herbs** - More than 2,000 medicinal plant species, with around 300 species of interest for pharmacology.

# COMPETITIVE SECTORS FOR INVESTING

Trebinje offers to investors excellent opportunities for investments in sectors of agriculture, tourism, energy and processing industry.

Under Spatial Regulation Plan of Republika Srpska for the period until 2025, the city of Trebinje is envisaged as the primary regional center of the energy, agricultural and tourism region of Trebinje-Foča (with around 104,000 inhabitants).

Source: 2018-2027 Trebinje City Development Strategy

Trebinje cheeses, škipavac, cheese from bellows and cheese from oil, along with wines, are an inescapable part of the gastronomic offer.

## Agricultural Sector

An advantage Trebinje has for investments in the agricultural and food processing sector are the large arable land areas that have not been exploited for agricultural production for many years, and therefore represent a good resource for potential investment in this branch of the economy.

Thanks to the mild climate, wealth of sunshine and abundance of irrigation water in Trebinje, it is possible to grow various agricultural crops throughout the year. The conditions for growing Mediterranean crops in the RS are the most favourable in the Trebinje area. Early vegetables, fruits and vines are grown, and it is also possible to sow in autumn or spring.

In Trebinje 5,222 ha of arable land is available to investors in the agricultural sector, mostly alluvial soil. Out of this, over 1,000 ha were cultivated in 2022, and in the previous few years, 155 ha of arable land was leased to registered agricultural producers. The Ministry of Agriculture, Forestry and Water Management of the RS gave 695 ha under concession to registered agricultural producers of the City of Trebinje. The vast majority of this land under concession is located in the region of Popovo Polje and Trebinjsko Polje, and most leases are in the area of Ljubomirsko Polje.

- In 2024, the trend of increasing cultivation of Mediterranean fruit crops has continued, for which this area has favorable agroecological conditions, and the Faculty of Agriculture from East Sarajevo, based in Trebinje, has opened a department specializing in the cultivation of Mediterranean crops.
- In 2024, there were over 8,000 olive trees, over 12,000 fig trees, over 9,000 pomegranate trees, over 3,000 tangerine trees and 3,000 trees of kiwi in the City. The Agrarian Fund certainly contributed to this activity through the allocation of certain types of these seedlings to interested agricultural producers, and it specifically refers to fruit species such as figs and pomegranates. Given that olive cultivation is expanding, there are future plans to build an olive mill with the necessary supporting capacities, which would be able to provide olive processing services to all producers in the city.
- Of the stone fruits, the most abundant is the sour cherry with over 10,000 trees, then cherry with over 7,000 trees, and we note an increase in the cultivation of plums and apricots, which are represented by over 6,000 trees each with a tendency to further increase.
- The cultivation of continental apples and pear species is stagnating, while this is not the case with quince, whose cultivation is expanding due to alcoholic products.
- Viticulture in 2024 has seen a slight expansion compared to previous years, and the reason is the increase in the number of wineries. The Agrarian Fund has undertaken certain activities in establishing over 20 hectares of new vineyards. Experience and tradition in the cultivation of vines exist especially in the locality of Popovo polje, Petrovo polje and Lastva. In 2024, according to the available data, there were about 20 registered wineries in the City, and a large number of private households are involved in the production of wine and other distillates, and these products are in great demand by both the local population and the population in the surrounding area.
- In 2024, in the area of the City, the cultivation of medicinal plants continues to stagnate, so many areas that were under medicinal plants were plowed and sown with field crops and fodder plants. The situation with the cultivation of medicinal plants is similar in the surrounding municipalities.
- With an area of about 34,000 ha of meadows and pastures, Trebinje has excellent conditions for investments in livestock.
- Livestock production, as the main activity in terms of overall agricultural production, has recently experienced stagnation, similar to the surrounding region. There are several reasons for this, with the main ones being: imports, unfair competition, increasing imports of milk and dairy products in existing markets, depopulation of rural areas, aging households, and the increasingly frequent emergence of new types of diseases in livestock. Given the cost of meat and dairy products as well as the demand for these products, there is a need for revitalization of this branch of agricultural production in the City of Trebinje. This is supported by the large number of arable (neglected) areas on which fodder plants could be grown for livestock breeding, i.e., large areas under pastures suitable for this type of production. Thanks to the Ministry of Agriculture of the Republic of Srpska and the local community, new irrigation systems have been built in the period with the aim of improving agricultural production.
- Unpolluted land, with medicinal wild plants is favorable for beekeeping production. In the recent years, beekeeping has expanded in the area of the City of Trebinje. An increasing number of young people choose this type of production. It is estimated that there are over 25,000 bee colonies in the city. Honey and other bee products are in demand both in the region and beyond.

In 2024, in the agricultural sector, compared to 2023, there was an increase in income by 17 %, the number of employees decreased by 8 %, and the average gross salary increased by 31 %.

Source: Trebinje City

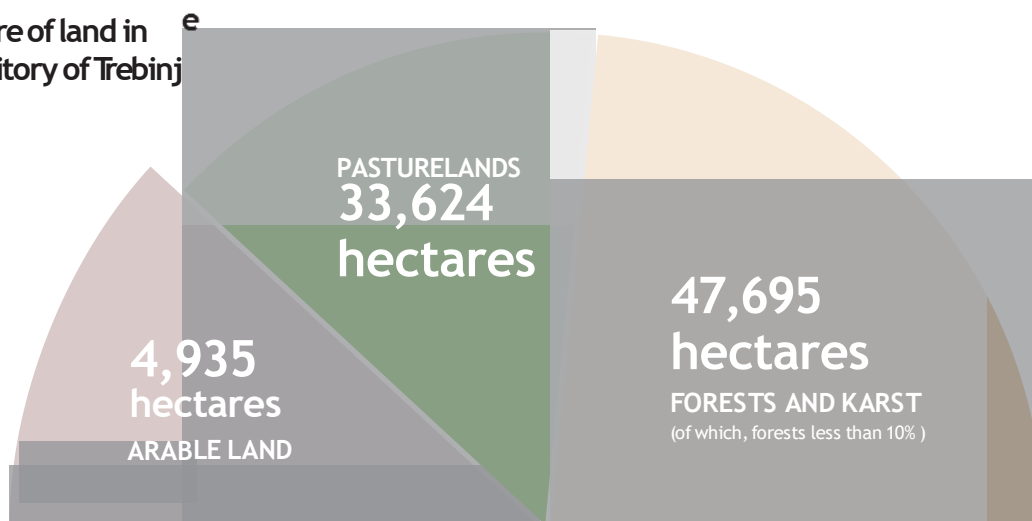

The autochthonous products of the Herzegovina area, the cheese, the honey, and the fruit species - figs, pomegranates, cherries etc.. are being bred.

On 80% of agricultural land there is an irrigation system that enables the irrigation for plants in the dry periods.

### Business opportunities:

- Construction of new and expansion of existing cold storages and warehouses
- Construction of collection stations, processing capacities and drying plants for fruit and vegetables
- Production of organic food

Structure of land in the territory of Trebinje

Structure of arable land in the territory of the city of Trebinje

Source: 2018-2027 Trebinje City Development Strategy

### Environmental protection

City of Trebinje recognized the importance of environment preservation, thus in the 2018-2027 Trebinje City Development Strategy the environmental protection measures were marked as exceptionally important. The local community assesses ecological potentials and promotes ways of use that ensures improvement of the local population life and, simultaneously, protection of the ecologically clean

Mediterranean environment.

To this end, the Trebinje City Assembly adopted the 2018-2027 Local Environmental Action Plan identifying priority areas with specific activities that are continuously implemented to ensure the environmental quality remains at high level.

## Tourism

Trebinje is exceptionally attractive tourism destination whose offer attracts a growing number of tourists each year. This is evidenced by the fact that Trebinje is the first city to receive the status of a tourist place in the Republic of Srpska in 2018. At the world's largest tourism and travel fair "ITB Berlin", the promotional video of the Tourist Organization of Trebinje "Trebinje - a place for all generations" won first place within the competition "The Golden City Gate 2023." The city of Trebinje with the story "House of Herzegovina" was chosen as the best world story about sustainable tourism and the competition was held as part of the "Green Destinations Story Awards - TOP 100 SUSTAINABILITY STORIES" International Tourism Fair "ITB 2022" in Berlin. Great efforts in the strategic development of tourism and the improvement of its promotion were recognized outside the region, so once again at the world's largest tourism and travel fair "ITB Berlin" the promotional video of the Tourist Organization of Trebinje "Trebinje goes green" was awarded to the City of Trebinje with the "Golden Star" award.

It is situated in the very south of the Republic of Srpska, at the crossroads between cities under the UNESCO protection: Dubrovnik (28km), Kotor (90km), and Mostar (120km).

**By all parameters, 2024 is the most successful year for tourism in Trebinje, and the growth in the number of overnight stays is moving in the direction of achieving the strategic goal - 700,000 overnight stays by the year 2030!**

Except for the period of the COVID crisis (2020), each subsequent year saw a significant increase in tourist arrivals and overnight stays, supported by new tourism offerings that are not seasonal in nature (such as congress and sports tourism).

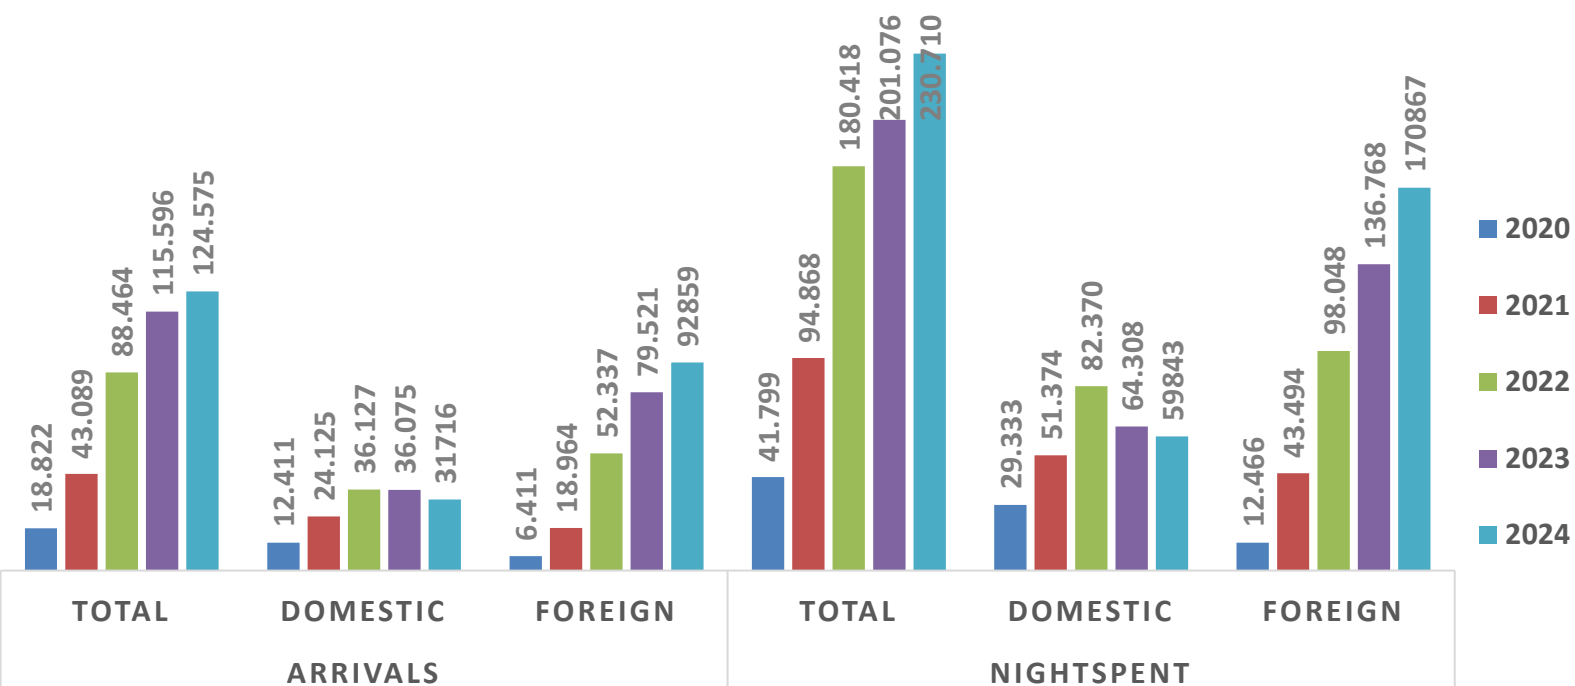

In the accommodation, food preparation and service, hotel, and hospitality sector, in 2024 compared to 2023, revenues increased by 65%, the number of employees rose by 15%, and the average gross salary increased by 33%.

**Trebinje offers: Magnificent, well-preserved nature, a variety of cultural and historical monuments and cultural events healthy food, excellent wine, and traditional Herzegovinian cuisine**

## TOURIST ARRIVALS AND OVERNIGHT STAYS IN 2020-2024

### Business opportunities:

- Investments in tourism infrastructure and services for various types of tourism: adventure, recreational, sports, educational, congress, cultural and historical tourism, and religious tourism

TREBINJE	CULTURAL AND HISTORICAL MONUMENTS EVENTS
<b>NATURAL ATTRACTIONS</b> <ul style="list-style-type: none"><li>• Trebišnjica River (98 km), at one time the longest underground river in Europe, flows, in its most beautiful part, through the very city. Because of its calm flow it is favorable for holding sports events in many disciplines, and because of the large abundance of fish it is a large attraction for fishermen.</li><li>• “White human fish”, the only amphibian in Europe that lives in caves, can be found in 46 underground locations in Trebinje. Trebinje possesses the first and only observatory for observation of human fish in the world.</li><li>• Vjetrenica, the most famous cave in Bosnia and Herzegovina, protected natural monument with the total of 6,700 m of underground channels discovered.</li><li>• Area of the Orjen massive is recognized as the most attractive for “active relaxation” - spending time in nature, hiking and mountaineering, and for speleological activities (exploration of crevasses and caves). In 2020 it was declared a nature park.</li></ul>	<ul style="list-style-type: none"><li>• Cultural and historical monuments - Old town of Kastel, Hercegovina Museum, Perovića (Arslanagića) bridge; gifts of the poet Jovan Dučić to the city: monument to fallen soldiers of World War I, figure of Jelena Anžujaska, Cupid’s fountain in the park, Dučić drinking fountain, lion figures, monument to Njegoš</li><li>• Religious facilities - monasteries of Tvrdoš, Petropavlovski, Duži, Zavala, Temple of Holy Mother of God - Hercegovina’s Gračanica; churches of Holy Transformation, Holy Kliment and Holy Arhangel; Catholic Cathedral; Osman-pasha Mosque and Emperor’s Mosque</li><li>• Plane trees are one of the most recognizable symbols of Trebinje. For many visitors of the city, the summer garden of plane trees represents an oasis in hot days where they can get refreshed in the shade of trees more than 120 years old.</li><li>• Dučić evenings of poetry is the cultural event that has, traditionally, been held in Trebinje for 51 years and gathers the most prominent artists from BiH and the region. It is devoted to Jovan Dučić, Serbian and Bosnian-Herzegovinian poet and diplomat born in Trebinje. On this occasion, poetry nights are held, in addition to theatre shows, visual arts exhibitions, and “poetry for the youngest generations” gatherings.</li><li>• Visual arts colonies Lastva and Kolo</li><li>• Festival of Mediterranean and European film</li><li>• Trebinje cultural summer</li><li>• Motorcycle gathering - Motorijada</li><li>• Summer school of sports</li><li>• Night of the Museum, Festival of Drama Amateurs Festival, Vidovdan celebrations, International Classical Music Festival Music&amp;More Summerfest, Trebinje Guitar Festival</li></ul>

# Energy Sector

## Hydro Power

Thanks to climate conditions and wealth of precipitation, the area of Trebinje is among the areas in the Balkans and in Europe that are rich in water.

The largest source of water is the watershed area of Trebišnjica river with total surface area of 4,457 m<sup>2</sup>. The concept adopted for the construction of the Hydro Power System of Trebišnjica pointed to the possibility to construct seven hydro power plants and six reservoirs in the entire system. To this day, 4 hydro power plants have been constructed as part of the project of "Lower Horizons" (Trebinjel and II, Dubrovnik-Platand HE Čapljina).

In Trebinje, the head-quarter of MH "Elektroprivreda" Republika Srpska" is located.

Contact for information:

Tel: +387 59 277 101; Fax: +387 59 277 120

Web: <http://ers.ba/>

## Business opportunities:

The Project of "Upper Horizons of Trebišnjica River", which includes the unconstructed part of the hydropower system upstream from the "Bileća" reservoir is, in its essence, a very complex project that treats the entire area as a single water management unit. The energy part of the project involves the construction of three new hydro power plants in the territory of Republika Srpska: HPP Nevesinje (61 MW), HPP Dabar (160 MW) and HPP Bileća (36 MW). HPP Dabar is in the initial phase of construction.

Technical indicators of constructed hydro power plants in the system of Hydro Power Plants on Trebišnjica river:

Name of HPP	No. of agr.	Nominal power		Power on threshold	Average annual generation	Median annual flow	Useful volume of reservoir	Maximum gross slope
		MVA	MW	MW	GWh	m <sup>3</sup> /s	mil.m <sup>3</sup>	m
Trebinje I	3	3×67	3×60	180	479.4	71	1 082.3	104.15
Trebinje II	1	10	8	7.6	12.5	82.9	9.3	22
Dubrovnik	2	2×120	2×108	2×105	1 391.1	82.9	9.3	295
PHE Čapljina	2		2×220	440	451	28.9	6.5	227

## Solar energy

Trebinje is located in the sunniest part of Bosnia and Herzegovina. Solar insulation is at the level of 1,800 kWh of heat energy per m<sup>2</sup>, which classifies Herzegovina and Trebinje amongst the most favorable locations in the region and Europe for investing in renewable sources of energy from the sun.

## Business opportunities

- Investments in power generation from solar energy for own needs and delivery of energy surpluses into the system

## Processing sector

Processing industry has a long tradition in the economy of Trebinje and East Herzegovina and the sector changes and adjusts to modern economy and growth of demand in the market.

In recent times, the focus of the processing industry in Trebinje has been on the food sector, which is dominated by confectionery products, non-metallic mineral products, and metal processing.

In the structure of total revenues by activities in 2024 in Trebinje, the processing sector participates with 9,5 %.

### Structures of total revenues in processing industry in Trebinje in 2024

Source: 2018-2027 Trebinje City Development Strategy; Trebinje City

Revenue in processing industry in 2024 compared to 2023 is increased by 12 %, the number of employees decreased by 3 %, and the average gross salary increased by 18%.

## Business opportunities:

- In the food processing sector, unused potentials exist in final fruit and vegetable processing and production of dried fruits and vegetables.
- Non-polluted environment, Mediterranean climate, construction of the irrigation system in Petrovo and Trebinje field and significant unused agricultural areas in Popovo field represent excellent opportunities for investing in production and processing on the basis of natural resources.

## Other sectors

- In the trade sector, in 2024 there was an increase in revenue by 4 %, the number of employees decreased by 2%, and the average gross salary increased by 21 %, compared to 2023.
- In the construction sector in 2024 ,compared to 2023 ,revenues increased by 18 % ,the number of employees increased by 1 % and the average gross salary increased by 22 %.
- In the transport and storage sector in 2024 compared to 2023 ,revenues increased by 14 % ,the number of employees increased by 9 % ,and the average gross salary increased by 12 %.
- In the sector of information and communication in 2024, ,compared to 2023 ,revenues increased by 66 %, the number of employees increased by 2 % and the average gross salary increased by 16 %
- In the sector of professional, scientific, and technical activities, in 2024 compared to 2023, revenues increased by 22%, the number of employees grew by 5%, and the average salary increased by 19%.
- In the field of health care and social work in 2024 , compared to 2023 , revenues increased by 28 % , the number of employees decreased by 23%, and the average gross salary increased by 37 %.

## COSTS OF DOING BUSINESS FOR INVESTORS

### Favorable operational costs

#### Permits in the process of construction within competence of Trebinje City Administration

- Time and costs of issuance of location requirements, construction permit and usage permit

Applications for issuance of permits are submitted to the Department for Spatial Development of the City of Trebinje.

# SUPPORT FOR INVESTORS PROVIDED BY TREBINJE CITY ADMINISTRATION

## Reforms for improvement of business environment

- The city administration of Trebinje implemented a regulatory reform, resulted in simplified procedures for issuance of permits and licenses under competence of the City, faster processing, lower costs, and significant savings for investors.
- Transparency of operations of the administration was increased through the establishment of the electronic register of administrative procedures and electronic register of incentives awarded by the City to investors.
- Aftercare program for existing investors was established, through cooperation with higher government levels within the Collaborative Network.
- Work of the Economic Council was improved aiming at higher quality public and private cooperation and dialogue on all topics of importance for the private sector.
- Department for Local Economic Development, Investments and Energy Efficiency provides support to investors in the implementation of their investment projects.
- Development Agency of the City of Trebinje was established to support potential entrepreneurs and enterprises in development.
- Office for Entrepreneurship-( within the Department of Tourism, Environmental Protection and Entrepreneurship ) the goal and focus of the office is to help already registered entrepreneurs as well as the new independent entrepreneurs to register and provide informative and advisory approach. The desire (but also the obligation according to the BFC standard) of the City Administration is to enable the start of entrepreneurial activity within 24 hours from the moment of submitting the request for activity registration.
- For the private sector, the city administration provides several programs of support and incentives with the objective to develop business operations and the overall local economy.
- During the period 2018 - May 2024, local agricultural producers were allocated over 151.30 ha of agricultural land for lease for a period of 10 - 20 years, which constitutes an additional potential for the development of the base of agricultural and processing capacities.
- The Agrarian Fund of the City of Trebinje was established to support local agriculture producers to accelerate the agricultural production development, and potential entrepreneurs and companies in this sector.
- Trebinje has BFC standard, which guarantees that the City is an investor friendly business environment.

# PRACTICAL INFORMATION FOR INVESTORS

## ATTRACTIVE INVESTMENT LOCATIONS AT THE VERY BORDER WITH EU

Available to investors in Trebinje are Business zone Volujac, parcels for greenfield investments and former “Novoteks” facility for brownfield investments.

### Locations for greenfield investments

Contact for inquiries for greenfield locations:

Department for Spatial Development of the City of Trebinje

Contact: Amerisa Zavitan Jeftović

Telephone: +387 59 273 471

E-mail: [prostornouredjenje.nacelnik@trebinje.rs.ba](mailto:prostornouredjenje.nacelnik@trebinje.rs.ba)

### Volujac Business Zone

No	Type of information	Information
	Name of the zone	<b>Volujac Business Zone</b>
2	Type of investment (greenfield, brownfield)	Greenfield
3	Surface area	85 hectares
4	Ownership	Ownership over parcels for construction: city 11%, RS 41%, private entities 48%
5	Description of the zone's location in relation to transport corridors	It is around 5 km from the city center, immediately along the M20 Primary Road (Trebinje-Dubrovnik, Croatia/EU). The distance of the Business Zone from the M20 Primary Road is 1 km, from the railway 70 km, from the sea port 30 km, and from the airport 45 km. There is an adopted Regulation Plan.
6	Number and surface area of parcels that are free and available for investing	Construction parcels are planned in such a manner that their size can be tailored to needs of an investor. In the course of development of the Regulation Plan (RP), care was taken of the fact that in that moment in time it was not possible to fully analyze needs of future investors, so the RP envisages the possibility of consolidation, i.e. division of construction parcels.
7	Business opportunity	Purchase of land
8	Sale price of land in the zone	The price of 1 m <sup>2</sup> of construction land in the Volujac Business Zone amounts to BAM 50. Costs of construction land development amount to BAM 92,08m <sup>2</sup> , rent amounts to BAM 44,44m <sup>2</sup> . The City facilitates a reduction in the rent and costs of development for constructing manufacturing plants in the Business Zone, specifically: 99% for the rent and 25% for the costs of development.
9	Infrastructure	35/10 kV substation, possibility of connecting to the low voltage network. Water supply infrastructure is developed (pipes with diameter of 100 mm). Road in the Business Zone is partially constructed.
10	Priority sectors for investing in the zone	Within the Business Zone construction of manufacturing plants (clean industry), trade and warehousing facilities is envisaged.
11	Existing companies in the zone	In the Volujac Business Zone, 6 enterprises currently operate.
12	Documentation necessary for investing in the zone and who is issuing it	There is an adopted Regulation Plan

Other available land for greenfield investments

The city of Trebinje also has plots that are intended for the construction of business/commercial facilities.

## Locations for brownfield investments

### Contact for inquiries for brownfield location:

Department of Tourism, Environmental Protection and Entrepreneurship of the City of Trebinje

**Contact:** Branislav Kešelj , Head of Department

**Telephone:** +387 59 273 485

**E-mail:** [tpp@trebinje.rs.ba](mailto:tpp@trebinje.rs.ba)

The City of Trebinje offers to investors one facility for brownfield investments. It is a part of the facility of former "Novoteks" (actual facility name is Tini Business Center). Around 3,000 m<sup>2</sup> of commercial / manufacturing space is available for investors. The facility is connected to utility infrastructure and is located immediately next to the city bypass, around 2 km from the city center. It was built in the 1980s, purposefully for manufacturing and warehousing in textiles industry.

## STATEMENTS OF EXISTING INVESTORS IN TREBINJE

### Director of POROBIC Ltd Trebinje, Mr Zoran Porobic:

"The cooperation of the City of Trebinje and the company POROBIC Ltd Trebinje is primarily focused on joint deployment on the construction of numerous infrastructure projects, which are the result of the accelerated urban and economic development of the City in the last decade. Successful cooperation is characterized by a high degree of mutual operability with the application of modern approaches in construction, and the sharing of ideas with the creation of adequate solutions, while respecting the urban and aesthetic characteristics of the City. Through the public calls that the City of Trebinje has been announcing, as support programmes for employment, it is successfully dealt with the growing problem of a lack of human resources. The progressive economic and urban development of the City significantly contributes to the growth and development of all economic operators, including our companies. "

## SIGNIFICANT BUSINESS ENTITIES IN TREBINJE

### Agriculture, forestry and fishing

- **"Popovo polje", joint-stock company** - Production of fruit - apples, cherries, and grapes. The firm was founded in 1977. Upon intensive investments of the shareholders the firm was modernized, and the production was harmonized with the most up-to-date global standards, along with continuous increase in the volume of production. Under the slogan "I love fruit" the company is successful in cultivation and selling high-quality fruit both in the country and abroad. <http://www.popovopolje.com/index.php/sr/onama>
- **"Agrofin", Ltd** - Production and sale of wine grape. Black varieties offer: vranac, merlot and cabernet. White varieties offer: žilavka, chardonnay and smederevka. E-mail: [agrofindoo@gmail.com](mailto:agrofindoo@gmail.com)

### Processing sector

- **"Swisslion", Ltd Trebinje** - The Sweet house is a retail chain specializing in promotion and selling of salty and sweet products of Swisslion-Takovo. The sale networks consists of 112 retail shops in Serbia, Croatia, Bosnia and Herzegovina, the Former Yugoslav Republic of Macedonia and Montenegro. <http://www.swisslion-takovo.com/o-nama/>
- **"Swisslion IAT"** - "Swisslion IAT" - Tool Industries in Trebinje is manufacturing cut tools for more than 55 years and is amongst the largest producers in Europe. Tools are produced from the highest quality steel (Molybdenum, Cobalt and other alloy fast cutting steel). <https://www.ecomex.co.rs/rezni-i-brusni-alati/iat-swisslion-iat/150-industrija-alata-trebinje.html>
- **"Monting-energetika", Ltd** - One of modern privately owned metal processing companies in Herzegovina founded in Trebinje in 2001. The company's business activities are the production and installation of process equipment, metal structures and spare parts for various industrial facilities. By quality improvement, it is increasingly becoming a recognizable company in its sector. E-mail: [montinge@teol.net](mailto:montinge@teol.net)
- **"Vukoje Wine Cellars 1982"** - For the fourth decade already the company's business activity is a limited production of premium wines and alcoholic beverages. The winery relies on modern technologies, controlled fermentation processes and the traditional method of wine aging in oak barrique barrels in basements located eight meters below the surface of the earth. The company is a winner of over 150 gold medals at domestic and international wine competitions; it won 10 gold and silver medals in AWC Vienna 2015, the most significant and officially the biggest World Wine Contest, and was declared the best national producer in BiH. E-mail: [podrumvukoje@gmail.com](mailto:podrumvukoje@gmail.com)

## Processing sector

- **"Tvrdoš Monastery Wine Cellars"** - Monastery has two wine cellars. In the old stone cellar from the 15th century, in centennial oak barrels, "vranac" ages, and only 10 meters away, along the Trebišnjica river, a new wine cellar has been dug, equipped with the latest technology, but perfectly integrated into the existing complex. Modern technological solutions include the gravitational transport of wine during processing, enabled by height differences between various levels of cellars. Tvrdoš Monastery winery has achieved great success at this year's wine competition in London, winning 1 gold and 2 bronze medals for its wines. Monastery Tvrdoš wine "Velika Rezerva" won gold medal in a very strong competition of more than 16,900 wines from around the world, and wines "Vranac" and "Hum" (*Cabernet Sauvignon*) won bronze medals. This award is the biggest success so far for all wines and wineries from the Republic of Srpska. The great success at the global level, at the strict and demanding Dekanter world wine awards, is just one of many confirmations of a continuous premium quality of Monastery Tvrdoš wines, and ranks the winery among the most successful and famous in the region. E-mail: [tpodrumi@teol.net](mailto:tpodrumi@teol.net)
- **„Dineco Group“ Ltd Trebinje** was established in 2006. Since its establishment, they have been engaged in the production of plate material, and later have completed their design and interior equipment, from the conceptual design, 3D visualization to the final production. Production and sales program of the company Dineco Ltd Trebinje consists of: Business unit: Production of furniture from panel material; Business unit: processing of natural marble and granite and Business unit- Retail of office chairs and furniture. E-mail: [dineco.co.ba@gmail.com](mailto:dineco.co.ba@gmail.com)
